DR. L. FISHER'S RGETABLE AGUE OR TONIC AND ANTI BILIOUS PILLS. Are for sale in Kalida, Person Co., O., by

C. H. RICE.

They are warranted, for the cast of 100 per box, see bills accompanying the pills: Kach box contains 43 Pills; Mosers. R. W. Shawhan and Josee Shriver, merchants of Piffin, after 15 years experience in the sale of medicine, testify that they are the most popular and eminently successful medicine they have ever sold,—and more than a score of citizens, of the first respectability certify that they are the best medicine, after the experience of the last senson, they have any knowledge of. They are perfectly harmless, both for males and females and children, under any circumstances. The proprieter offers 1000 dollars reward to any one who shell detect any metallic substance in their preparation. Judge Pettinger of

Tiffin, says in his certificate, one box of Fisher's Ague Pills cured three of his family. The Rev. A. W. Jewitt, testifies, he reed medicine in the proprietor's office, and assures all whom it may concern, that the pills are entirely vegetable, and that no poisons are a part of their composition, and that they are deservedly popular beyond every other medicine of the kind, in his epinion. The Rev. J. M. Morrow, and Rev. Mr. Humphrey and others, express in heir certificates entire considence in their curative properties. Try them, all who have the Ague and Fever, and you will real ze all the benefits from their use, that is premised by the above recommendation.

DR. L. FISHER'S VEGETABLE BIL-IOUS OR ANTI-DYSPEPTIC PURGA-TIVE PILLS are a family medicine for 25 cents a box, which will contrast in good qualities with any other pill of the kind in use. The testimony in their favor is that they are recive in their operation, without occasioning debility. They should be in the family of every body that lives in bilious districts, where Ague, bilious, remittent, and other fovers prevail. These pills together with Dr. L. Fisher's Ague Pills, are in most cases, all the medicine needed to break up Ague and Bilious fevers.

Purchasers have the privilege of using t of a box, and if the pills do not give satisfaction, the balance may be returned, when their money shall be refunded.

GALIFORNIA GOLD! DISCOVERED BY

SIGNOR D'ALVEAR'S GOLDOM-ETER!

The Gold Seekers Guide!

Secret Art of finding Mines Gold, Silver, Iron, Lead, Copper, Coul, and other Mineral

Riches. The first discovery of Gold in Galifornia the Mineral re-was made by DON JOSE D'ALVEAR, an and the world. eminent Spanish (Geologist, Chemist and Natural Philosopher, by means of a newly invented Magnetic instrument, called

THE GOLDOMETOR, OR GOLD SEEKER'S GUIDE!

Signor D'Alvear has just arrived at New York, from the gold regions of California, by way of Panama, Chagres and New Orleans bringing with him a very large quantity o Gold ore, valued at nearly one million of dollars, which he collected there, long before the existence of the Gold mines became known to the residents of California generaly.

HISTORY OF THE DISCOVERY.

Signor D'Alverr went out to Catifornia nearly two years ago, in consequence of certain information which he had received of the geological character of that country, with the firm belief that vast mines of precious metals would be revealed there, spon careful investigation. He was encouraged to this enterprise, also, by his confidence in the powers of a certain Magnetic instrument which he had invented, called the"Goldometor," by whose aid he expected to be directed at once to the "Gold Placers,", if any such existed. Nor were his expectations disappointed. His scientific calculation proved founded in truth and profound wisdom and his new instrument, the "Goldometor," fulfilled his highest hopes: In less than two months after reaching California, he struck upon one of the richest gold mines in that country, upon an obscure branch of the Sacremento river, in a gorge of hills extremely rocky and difficult of access, and seldom visited by the native Californians. Disguising his object under the pretence of purely scientific research, he obtained the aid of some fifteen or twenty simple and faithful Indians, and stendily pursued his task, coffect ing often more than \$3,000 werth of gold in a single day, which he concealed in a deep ravine, without exciting any suspicion whatever, until after the discovery of gold at Capt. Suiter's Mill, when the mountains were ransacked by gold seekers, and Signor D' Alrear's "gold placer," the richest in all California, was beset with greedy adventurers. It is now found that the real mines or sources of the gold, lie in the gorges of the mountains, and not in the beds or sands of the rivers. Previous to leaving California, Signor D'Alvear sold his instrument, a very imperfect one, for three thousand dollars. The person who purchased it confidently expects to make a handsome fortune, by simply finding "gold placers" and selling out the right of digging to the gold workers.

MANUFACTURE OF THE GOLD-OMETER, AND PUBLICATION

OF THE GUIDE. Signor D'Alvear, in compliance with the request of numerous scientific gentlemen wit:

The southeast quarter of section twenty-eight (28) in township No. two (2) south of range No. seven (7) Magnetic instrument, Goldemeter, which he now offers for sale, in the U. S. at the low price of three dellars each, accompanied by fall instuctions for use, and a variety of Philosophical hints drawn from the ancient and

modern sciences, or THE ART OF FINDING MINES OF GOLD!

Silver, Platinum, Quicksilver, Coal, Iron, Copper, Lead, and other Mineral Riches, the whole being given in a publication called

GOLD SEEKER'S GUIDE! This new work and the Goldometer, are

both now ready for sale. The GOLDOMETOR is so simple an in-

strnment, that a child may learn to opperate with it in five minutes. It is not affected by climate, moisture, or any other known cause except the natural magnet, and will retain its power of pointing out mineral riches in the earth for any number of years. By the aid of the Guide any person may use the instrument at once with perfect success.

FARMERS AND LAND-OWNERS.

Farmers and land owness throughout the United States, who have reason to suspect the existence of any mineral riches upon their lands, should avail themselves of this opportunity to test that fact, by the surest of all known tests, before the abundance of discoveries in all parts of the country shall have lessened this source of wealth in their estate.

ADVENTURERS TO CALIFORNIA.

Persons going to California cannot make a better investment than by purchasing one of these instruments, which will not only be worth fifty times its value there, to sell again but will be of inestimable worth to those who go in search of gold, as has been proved by the most abundant experments both in Cali-fornia and the United States.

TESTIMONIALS.

Signor D'Alvear does not deem it necessary to encomber this notice with a long list of testimonials, in proof of the value of his COLDOMETOR, and Gold seeker's guide. The brilliant results of his labors in California, and the discovery this very week of fresh veins of Gold in Virginia, and be of Coal in Rhode Island, by its use, are al sufficient to stamp it as the greatest di ery of the age. Nothing but the ex cheapness of the instrument, and his to see it used for the benefit of ma duces him to dispose of it at the l

for which he offers it. Beside this, his own desire for wealth is nearly satisfied. The following Testimonials, in proof of a value of the Goldomator selected from a great number equally satisficatory, must sufice for the present.

ASTOR HOUSE, NEW YORK, Dro. 21, 1846 The undersigned having this day witnessed the practical operation of Signor Jose De-Alvear's newly invented Magnetic instrument the Goldometer, feel entirely satisfied that it posesses the extraordinary power of detecting Mineral ores hidden beneath the surface of the earth, and have no doubt that it will! prove an invaluable aid in the discovery of the Mineral resources of the United States

J. R. DRAPER, JR., CHEMIPT. L. S. TIERMAN, MAGNETIC INS. MAKES. G. S. DANA, GEOLOGIST.

Los Angelos, California, August 1848.

This may certify that the undersigned is fully convinced that Signor Jose De Alvear was the first discoverer of the Gold deposites of California, and that his discovery was made by the aid of a Magnetic instrument called the Goldameter, which I have seen successfully applied to the discovery of veins of Gold ore, in places where no indications of that substance appeared upon the surface of the earth.

T. W. SHERMAN.

NO AGENTS. In consequence of the difficulty of findi faithful agents, and of preventing frauds where articles of this nature are sent out for general sale, Signor De Alvear has determined to sell none of his works or instru-ments unless ordered by letters sent directly to him, when the desired pudlication, stringstrument, will be forwarded under his signature and seal, so that all doubt as to its

genuineness may be removed.

© Beware of all inditations of this instru which may hereafter appear, as the secret of imparting the Gold Detecting power is known to no person whatever, except the original inventor.

The GOLDOMETER, and Gold seeker's guide, will both be sent by mail closely enveloped and sealed, and therefore, not subject to inspection by Postmasters, for the sum of three dollars, sent post paid to Signor Jose De Alvear, Box 2713, New York City. The instrument is very light, and the Guide is printed on thin paper—so that the charge by mail, or express, will be very small to any part of the United States. The price of the Gold Secker's Guide alone, is

NE DOLLAR, sent as above .-Address, SIGNOR JOSE DE ALVEAR, Box 2718, New York City.
OFFICE for the sale of the Gold Seeker's Guide and Goldometer, No. 28 centre St., New York, where visitors may poo several casks of California Gold, in the rough state, as extracted by Signor De Alvear fro the Sacremento mines, and also witness the operation of Goldometer, when held within the magnetic influence of the precious metal and the unerring manner in whic's it indicates
